

# ADVITIYA SINGH KANTA

Level Designer

Dundee, United Kingdom | [advitiyakanta@gmail.com](mailto:advitiyakanta@gmail.com) | [advitiyakanta.github.io](https://github.com/advitiyakanta) | [linkedin.com/in/advitiyasingshkanta](https://linkedin.com/in/advitiyasingshkanta)

## PROFILE

Level Designer with seven months of commercial experience at Kahr Works on *Revolver Rift*, an announced AA PvPvE extraction shooter in development, built in Unreal Engine 5. Abertay MProf graduate focused on 2D-to-3D spatial design, readable player flow, documentation and playtest-led iteration.

## COMMERCIAL EXPERIENCE

### Level Designer - Kahr Works GmbH

Dec 2024 - Jun 2025

Revolver Rift - announced AA PvPvE extraction shooter in development - Unreal Engine 5

- Created 2D layouts and playable compound blockouts for an in-development commercial title.
- Created more than 5 compound blockouts across the seven-month placement.
- Iterated navigation and pacing through team review in a multinational studio environment.

## SELECTED ABERTAY MPROF PROJECTS

### To Pierce Eternity - Level Designer

May - Aug 2026

12-person academic team project responding to a Hyper Luminal Games client brief - Unreal Engine 5

- Planned the player space through bubble diagrams and 2D layouts, then blocked every playable area.
- Redrew the spatial plan after scope cuts and held Level Design intent through team art integration.
- Changed safe-room guidance after client QA exposed ambiguous doors; owned chase flow and trap placement.

### Hull & Horizon - Lead Level Designer and Audio Lead

Feb - May 2026

Team of 5 academic project created to a V&A Dundee client brief - Unreal Engine 5

- Designed the first-person deck route, blockout, landmark hierarchy, spatial pacing and NPC placement.
- Synthesised ten museum-floor visitor sessions into onboarding, prompt, beat and ending revisions.
- Took on the Audio Lead scope in Week 6 while maintaining the Level Design deliverables.

### GoodBabies - Level Designer

10-week project

Abertay team prototype - Unreal Engine 5.6

- Built a single-room layout around fixed-view readability, threat staging and beat-mapped pacing.

## EDUCATION

### MProf Games Development - Abertay University

2025 - 2026

Dundee, United Kingdom

### BSc Game Design, Animation and VFX - Chandigarh University

2022 - 2025

India

## DEMONSTRATED SKILLS

Unreal Engine 5 blockout and greybox; bubble diagrams, 2D layouts and beat maps; player flow, landmarks and sightlines; composition- and light-led guidance; pacing and environmental storytelling; playtest observation and iteration; Level Design documentation and collaboration; basic Level Blueprint, trigger and spline prototyping.

Portfolio edition - 13 August 2026
